

## Special Issue

# Precision Medicine in Neurology

### Message from the Guest Editors

Precision medicine represents a transformative approach to healthcare, customizing patient care to an individual's genetic makeup, lifestyle and environment. In the field of neurology, this paradigm shift promises to revolutionize the diagnosis, treatment and management of neurological disorders, which are among the most complex and challenging areas of medicine. The significance of precision medicine in neurology cannot be overstated given the vast heterogeneity and intricacy of neurological diseases, ranging from neurodegenerative conditions such as Alzheimer's and Parkinson's disease to neuroinflammatory disorders such as multiple sclerosis. The aim of the Special Issue is to assemble a comprehensive collection of original research articles, reviews and case studies that illuminate the forefront of precision medicine as it applies to the field of neurology.

### Guest Editors

Prof. Dr. Corneliu Toader

1. Department of Neurosurgery, "Carol Davila" University of Medicine and Pharmacy, 020021 Bucharest, Romania
2. Department of Vascular Neurosurgery, National Institute of Neurology and Neurovascular Diseases, 077160 Bucharest, Romania

Prof. Dr. Alexandru Vladimir Ciurea

1. Department of Neurosurgery, "Carol Davila" University of Medicine and Pharmacy, 020021 Bucharest, Romania
2. Neurosurgery Department, Sanador Clinical Hospital, 010991 Bucharest, Romania
3. Medical Section, Romanian Academy, 010071 Bucharest, Romania

### Deadline for manuscript submissions

closed (11 October 2024)

## About the Journal

### Message from the Editor-in-Chief

*Journal of Personalized Medicine (JPM)*, ISSN 2075-4426) is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. *JPM* publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, 'omics association analysis). *JPM* is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

### Author Benefits

#### High Visibility:

indexed within Scopus, PubMed, PMC, Embase, and other databases.

#### Journal Rank:

CiteScore - Q1 (Medicine (miscellaneous))

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.5 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the first half of 2025).
