

Special Issue

New Advances in Techniques and Personalized Medicine in Cardiology

Message from the Guest Editor

This Special Issue will explore the latest innovations in cardiovascular imaging, genetics, and personalized therapeutic strategies, aimed at advancing precision care in cardiology.

We welcome contributions from cardiologists, geneticists, cardiologists, and pharmacologists on diverse topics, including the following:

State-of-the-art cardiovascular imaging techniques that enhance diagnostic accuracy, early detection, and personalized monitoring of heart diseases;

Genetic discoveries and biomarkers that pave the way for tailored, patient-specific approaches to risk stratification, disease prevention, and treatment;

Innovations in pharmacology with a focus on personalized medicine, targeting individual patient profiles for optimized cardiovascular drug therapies;

Emerging therapeutic strategies integrating cutting-edge science with real-time physiological data, enabling precision medicine in cardiovascular care.

We encourage submissions that address the potential of combining clinical expertise, molecular insights, and technological innovations to offer the most effective, personalized care.

Guest Editor

Dr. Camilla Calvieri

Department of Cardiovascular, Respiratory, Nephrologic, Anesthesiologic and Geriatric Sciences, Sapienza University of Rome, 00185 Rome, Italy

Deadline for manuscript submissions

10 September 2025

About the Journal

Message from the Editor-in-Chief

Journal of Personalized Medicine (JPM), ISSN 2075-4426) is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. *JPM* publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, 'omics association analysis). *JPM* is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

Editor-in-Chief

Prof. Dr. Kenneth P.H. Pritzker

Department of Laboratory Medicine and Pathobiology, Department of Surgery, University of Toronto, 6 Queens Pk Crescent W,F, Toronto, ON M5S 3H2, Canada

Author Benefits

High Visibility:

indexed within Scopus, PubMed, PMC, Embase, and other databases.

Journal Rank:

CiteScore - Q1 (Medicine (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.5 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the first half of 2025).
