Special Issue

Molecular Neurobiology of Neurodegenerative Diseases

Message from the Guest Editors

Despite the large-scale studies conducted so far, a deeper knowledge is further needed to help in translating the recently discovered molecular mechanisms into clinical settings, from the development of early diagnosis biomarkers to the development of new pharmacological treatments. We are inviting the submission of original articles to this Special Issue of the *Journal of Personalized Medicine* that report new findings in the molecular neurobiological bases of neurodegenerative diseases, coming from omics-based approaches (e.g., from genomics to proteomics) or from functional studies (e.g., in vitro and in vivo studies).

Guest Editors

Dr. Ignazio Stefano Piras

Translational Genomics Research Institute, Phoenix, AZ, USA

Dr. Valerio Napolioni

School of Biosciences and Veterinary Medicine, University of Camerino, Camerino, Italy

Deadline for manuscript submissions

closed (15 November 2021)

About the Journal

Message from the Editor-in-Chief

Journal of Personalized Medicine is one of the few journals that covers the diverse areas involved in the field, including research at basic, translational, and clinical levels. It focuses on "omics"-level studies that seek to define the basis of interindividual variation in susceptibility for a disease, its prognosis or definition of clinical

subsets, and response to therapy (pharmacogenomics). We are also interested in systems biology as it relates to interindividual variation, and research on new methodologies, informatics, and biostatistics, in the aforementioned areas.

Editor-in-Chief

Prof. Dr. Kenneth P.H. Pritzker

Department of Laboratory Medicine and Pathobiology, Department of Surgery, University of Toronto, 6 Queens Pk Crescent W.F, Toronto, ON M5S 3H2. Canada

Author Benefits

High Visibility:

indexed within Scopus, PubMed, PMC, Embase, and other databases.

Journal Rank:

CiteScore - Q1 (Medicine (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.5 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the first half of 2025).
