Personalized Medicine in Acute Care Surgery: Postoperative Complications and Prognosis

Message from the Guest Editor

Acute care surgery (ACS) and trauma surgery (TS) are associated with a high rate of postoperative complications and poor prognosis compared to elective surgery. In recent decades, failure to rescue (FTR), defined as the death of a patient who has experienced severe complications, has emerged as a quality metric for evaluating definitive outcomes in patients who have undergone emergency surgical procedures. This Special Issue focuses on the vast plethora of complications that can arise after emergency surgical procedures in trauma and non-trauma patients. Articles evaluating the reliability of prognostic clinical and radiological scores in ACS and TS will also be considered in this Special Issue to highlight the need for a standardized approach in the emergency setting.

About the Journal

Message from the Editor-in-Chief

Journal of Personalized Medicine (JPM), ISSN 2075-4426) is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. *JPM* publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, 'omics association analysis). *JPM* is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

Editor-in-Chief

Prof. Dr. Kenneth P.H. Pritzker

Department of Laboratory Medicine and Pathobiology, Department of Surgery, University of Toronto, 6 Queens Pk Crescent W,F, Toronto, ON M5S 3H2, Canada

Author Benefits

High Visibility:

indexed within Scopus, PubMed, PMC, Embase, and other databases.

Journal Rank:

CiteScore - Q1 (Medicine (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.5 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the first half of 2025).
