## **Special Issue**

# Personalized Clinical and Community Nursing

## Message from the Guest Editors

This Special Issue of the *Journal of Personalized Medicine* aims to highlight the current state of the nursing science and showcase the latest evidence in the field of the personalized care that nurses provide in clinical and community settings. This Special Issue welcomes manuscripts focusing on personalized approaches relevant to nursing care in clinical and community domains, in assessment, planning, and implementation, manuscripts about the conceptual and theoretical frameworks, and original or review papers that describe and give evidence of the influence of the factors that affect all aspects of individualized nursing care: physical, mental, social, spiritual, emotional, cultural, economic, environmental.

## About the Journal

## Message from the Editor-in-Chief

Journal of Personalized Medicine is one of the few journals that covers the diverse areas involved in the field, including research at basic, translational, and clinical levels. It focuses on "omics"-level studies that seek to define the basis of interindividual variation in susceptibility for a disease, its prognosis or definition of clinical

subsets, and response to therapy (pharmacogenomics). We are also interested in systems biology as it relates to interindividual variation, and research on new methodologies, informatics, and biostatistics, in the aforementioned areas.

## Editor-in-Chief

## Prof. Dr. Kenneth P.H. Pritzker

Department of Laboratory Medicine and Pathobiology, Department of Surgery, University of Toronto, 6 Queens Pk Crescent W.F, Toronto, ON M5S 3H2. Canada

## **Author Benefits**

## **High Visibility:**

indexed within Scopus, PubMed, PMC, Embase, and other databases.

## Journal Rank:

CiteScore - Q1 (Medicine (miscellaneous))

## **Rapid Publication:**

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.5 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the first half of 2025).
