

Special Issue

Personalized Medicine for Coronary Artery Disease: Diagnosis, Prevention, and Treatment

Message from the Guest Editor

Personalized medicine is developing fast, and new data are emerging in huge amounts. This might enable the proper risk assessment, diagnosis, prevention, and therapy specifically tailored to the individual's unique characteristics, thus enhancing the quality of life and public health. Therefore, this Special Issue aims to present recent developments in personalized/individualized medicine and coronary artery disease. We invite authors to submit original studies, reviews, meta-analyses, and case reports focused on the individualization of the prevention, diagnosis, and treatment of coronary artery disease and its complications such as myocardial infarction or heart failure. We are soliciting not only genetic studies but all papers on the broadly understood personalized or individualized medicine, including manuscripts devoted to novel drugs, medical devices, or approaches dedicated to particular subsets of patients.

Guest Editor

Dr. Jacek Bil

About the Journal

Message from the Editor-in-Chief

Journal of Personalized Medicine (JPM), ISSN 2075-4426) is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. *JPM* publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, 'omics association analysis). *JPM* is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

Editor-in-Chief

Prof. Dr. Kenneth P.H. Pritzker

Department of Laboratory Medicine and Pathobiology, Department of Surgery, University of Toronto, 6 Queens Pk Crescent W,F, Toronto, ON M5S 3H2, Canada

Author Benefits

High Visibility:

indexed within Scopus, PubMed, PMC, Embase, and other databases.

Journal Rank:

CiteScore - Q1 (Medicine (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.5 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the first half of 2025).
