

## Special Issue

# Personalized Medicine in Epidemics

### Message from the Guest Editor

We are looking for papers which make a novel contribution toward optimizing the personalization of medicine during epidemics. This encompasses both the personalization of diagnoses and treatment of the epidemic disease itself, and adaptations in the personalization of diagnoses and treatment of other diseases, as necessitated by the epidemic. We also welcome “lessons learned” with a translation to other epidemics, both infectious and non-infectious, like obesity and diabetes.

### Guest Editor

Dr. Rutger A. Middelburg

Department of Public Health and Primary Care at the Leiden University Medical Center, Leiden, The Netherlands

### Deadline for manuscript submissions

closed (30 January 2022)

## About the Journal

### Message from the Editor-in-Chief

*Journal of Personalized Medicine (JPM)*, ISSN 2075-4426) is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. *JPM* publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, 'omics association analysis). *JPM* is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

### Author Benefits

#### High Visibility:

indexed within Scopus, PubMed, PMC, Embase, and other databases.

#### Journal Rank:

CiteScore - Q1 (Medicine (miscellaneous))

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.5 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the first half of 2025).
