

## Special Issue

# The Challenges and Prospects in Cardiology

### Message from the Guest Editor

Cardiovascular diseases pose a significant socioeconomic burden to the societies across the world. The mechanisms of several complex cardiovascular diseases are not completely understood and their treatments are far from satisfactory, thus providing great challenges to cardiologists. Emerging novel research methods and new diagnostic and therapeutic approaches play pivotal roles in overcoming these challenges. This Special Issue will focus on studies that identify and provide solutions to the challenges in cardiovascular diseases. Papers with cutting-edge researches that provide novel disease mechanisms, and diagnostic and therapeutic implications are welcomed. This means a wide scope of research topics, and includes heart failure, atherosclerosis, coronary artery disease, myocardial infarction and coronary intervention, arrhythmia, electrophysiology and catheter ablation, interventions for structural heart diseases, cardiovascular surgery, aortic disease, peripheral artery disease, pulmonary arterial hypertension, novel biomarkers, genomics, transcriptomics, proteomics, gut microbiome, stem cells, artificial intelligence, bioengineering, and many more.

### Guest Editor

Prof. Dr. Chia-Ti Tsai

Division of Cardiology, Department of Internal Medicine, National Taiwan University Hospital, Taipei, Taiwan

### Deadline for manuscript submissions

closed (30 August 2023)

## About the Journal

### Message from the Editor-in-Chief

*Journal of Personalized Medicine (JPM)*, ISSN 2075-4426) is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. *JPM* publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, 'omics association analysis). *JPM* is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

### Author Benefits

#### High Visibility:

indexed within Scopus, PubMed, PMC, Embase, and other databases.

#### Journal Rank:

CiteScore - Q1 (Medicine (miscellaneous))

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.5 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the first half of 2025).
