# Special Issue

# Proteomics and Personalized Medicine

## Message from the Guest Editor

The first successful applications in personalized medicine were made possible largely in part by the advent of next-generation sequencing techniques. The use of proteomics for personalized medicine was hampered by technical limitations, such as highthroughput measurements. However, the field of proteomics is evolving at a fast pace now, and recent breakthroughs will make proteomics a valuable asset in the arsenal of techniques used in personalized medicine. In this Special Issue, we want to present some of the latest technical developments in proteomics that will enable its use in personalized medicine and also pioneering applications. Therefore, we are looking for interesting cutting-edge contributions to our journal that use proteomics, from hardware to data analysis, for personalized medicine or that facilitate the implantation therein.

# About the Journal

# Message from the Editor-in-Chief

Journal of Personalized Medicine (JPM; ISSN 2075-4426) is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. JPM publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, 'omics association analysis). JPM is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

#### Editor-in-Chief

#### Prof. Dr. Kenneth P.H. Pritzker

Department of Laboratory Medicine and Pathobiology, Department of Surgery, University of Toronto, 6 Queens Pk Crescent W.F, Toronto, ON M5S 3H2, Canada

#### **Author Benefits**

# **High Visibility:**

indexed within Scopus, PubMed, PMC, Embase, and other databases.

### **Journal Rank:**

CiteScore - Q1 (Medicine (miscellaneous))

#### **Rapid Publication:**

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.5 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the first half of 2025).
