

## Special Issue

# Psychoneurobiology Research and Personalized Treatment of Schizophrenia

### Message from the Guest Editor

Besides the development of innovative compounds, there has been a trend towards non-pharmacological therapeutics, e.g., cognitive rehabilitation and neuromodulation (e.g., non-invasive brain stimulation) targeting schizophrenia. Further investigations into neurofeedback and environmental factors are also warranted. It is noteworthy that the effects of these treatment modalities have been related to biological markers provided by neurophysiological, neurochemical and structural/functional brain imaging methods. This Special Issue will provide a forum for researchers interested in the phenomenology, underlying mechanisms and treatment of schizophrenia. Contributions will include, but not be limited to, papers dealing with genetic, molecular, imaging, physiological, psychological and behavioral issues. Overall, the information in this Special Issue will facilitate the development of personal therapeutics of greater clinical value.

### Guest Editor

Dr. Tomiki Sumiyoshi

National Center of Neurology and Psychiatry, Kodaira, Tokyo, Japan

### Deadline for manuscript submissions

closed (30 June 2021)

## About the Journal

### Message from the Editor-in-Chief

*Journal of Personalized Medicine (JPM)*, ISSN 2075-4426) is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. *JPM* publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, 'omics association analysis). *JPM* is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

### Author Benefits

#### High Visibility:

indexed within Scopus, PubMed, PMC, Embase, and other databases.

#### Journal Rank:

CiteScore - Q1 (Medicine (miscellaneous))

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.5 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the first half of 2025).
