Latest Advances and Challenges in Bariatric Surgery

Message from the Guest Editor

Bariatric surgery has rapidly emerged as a pivotal intervention in the treatment of morbid obesity and its myriad associated comorbidities. Its influence extends far beyond mere weight loss. Recent studies have elucidated the intricate interplay between gut microbiota alterations, inflammation, and the surgery's metabolic consequences. Notably, significant advancements have been observed in the management of type 2 diabetes mellitus and metabolic syndrome post-operatively. However, with this progress come challenges, and an ever-evolving understanding of obesity and its associations with systemic health. This Special Issue aims to elucidate the latest developments, breakthroughs, and persisting challenges in the realm of bariatric surgery, with a keen focus on its broader implications for human health.

About the Journal

Message from the Editor-in-Chief

Journal of Personalized Medicine (JPM), ISSN 2075-4426) is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. *JPM* publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, 'omics association analysis). *JPM* is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

Editor-in-Chief

Prof. Dr. Kenneth P.H. Pritzker

Department of Laboratory Medicine and Pathobiology, Department of Surgery, University of Toronto, 6 Queens Pk Crescent W,F, Toronto, ON M5S 3H2, Canada

Author Benefits

High Visibility:

indexed within Scopus, PubMed, PMC, Embase, and other databases.

Journal Rank:

CiteScore - Q1 (Medicine (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.5 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the first half of 2025).
