

Special Issue

Treatment and Management of Sleep Apnea

Message from the Guest Editor

This Special Issue aims to gather a diverse range of research articles and reviews focusing on innovative therapies, emerging technologies, and novel approaches to OSA management. Key topics include novel therapeutic interventions, advancements in continuous positive airway pressure (CPAP) therapy, surgical outcomes, pharmacological approaches, technological innovations, and personalized medicine in OSA treatment. Manuscripts adhering to standard guidelines are welcome, encompassing original research, systematic reviews, meta-analyses, and clinical studies. Submission details, including deadlines and guidelines, can be found on our online submission platform. We believe that this Special Issue will contribute significantly to the OSA research landscape, fostering collaboration and knowledge exchange among researchers.

About the Journal

Message from the Editor-in-Chief

Journal of Personalized Medicine is one of the few journals that covers the diverse areas involved in the field, including research at basic, translational, and clinical levels. It focuses on “omics”-level studies that seek to define the basis of interindividual variation in susceptibility for a disease, its prognosis or definition of clinical subsets, and response to therapy (pharmacogenomics). We are also interested in systems biology as it relates to interindividual variation, and research on new methodologies, informatics, and biostatistics, in the aforementioned areas.

Editor-in-Chief

Prof. Dr. Kenneth P.H. Pritzker

Department of Laboratory Medicine and Pathobiology, Department of Surgery, University of Toronto, 6 Queens Pk Crescent W.F, Toronto, ON M5S 3H2, Canada

Author Benefits

High Visibility:

indexed within Scopus, PubMed, PMC, Embase, and other databases.

Journal Rank:

CiteScore - Q1 (Medicine (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 25 days after submission; acceptance to publication is undertaken in 5.8 days (median values for papers published in this journal in the second half of 2025).
