Precision Medicine in Urologic Oncology

Message from the Guest Editors

Functional urology includes a variety of conditions that affect lower urinary tract function, such as neurogenic and non-neurogenic LUTS, trauma, post-surgical complications, radiation therapy, etc. Some of these are congenital in nature, and others are acquired early or later in adult life. It is obvious that functional studies are essential tools in the diagnosis of lower urinary tract dysfunctions. There is an ongoing debate in functional urology forums about the role and utility of urodynamics as a diagnostic and prognostic tool for patients with filling and voiding disorders. Functional urology disorders always have an impact on one's quality of life, so the prevention and proper management, both surgical and non-surgical/medical, are of utmost importance. In this Special Issue, we aim to present different aspects of functional urology, especially in the context of uro-oncological patients. It is our pleasure to lead such an important, comprehensive Special Issue, and we look forward to receiving your valuable papers.

About the Journal

Message from the Editor-in-Chief

Journal of Personalized Medicine (JPM), ISSN 2075-4426) is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. *JPM* publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, 'omics association analysis). *JPM* is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

Editor-in-Chief

Prof. Dr. Kenneth P.H. Pritzker

Author Benefits

High Visibility:

indexed within Scopus, PubMed, PMC, Embase, and other databases.

Journal Rank:

CiteScore - Q1 (Medicine (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.5 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the first half of 2025).
