Precision Medicine in Plastic and Reconstructive Surgery

Message from the Guest Editors

The integration of precision medicine into plastic and reconstructive surgery heralds a new era of clinical interventions, where surgical outcomes are optimized through a deeper understanding of individual patient profiles, enhancing both efficacy and safety.

The scope of this Special Issue encompasses a wide array of topics within the realm of precision medicine applications in plastic and reconstructive surgery, including but not limited to biomaterials and tissue engineering for personalized grafts and implants, the role of stem cells in tissue regeneration, the use of precision diagnostics for surgical planning, and the development of targeted therapies to enhance healing and reduce complications. We invite submissions of original research articles, review papers that synthesize current knowledge, methodological innovations that pave the way for future advancements, and case studies that highlight the practical applications and outcomes of personalized approaches in plastic and reconstructive surgery.

Guest Editors

Dr. Ishith Seth

About the Journal

Message from the Editor-in-Chief

Journal of Personalized Medicine (JPM), ISSN 2075-4426) is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. *JPM* publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, 'omics association analysis). *JPM* is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

Editor-in-Chief

Prof. Dr. Kenneth P.H. Pritzker

Department of Laboratory Medicine and Pathobiology, Department of Surgery, University of Toronto, 6 Queens Pk Crescent W,F, Toronto, ON M5S 3H2, Canada

Author Benefits

High Visibility:

indexed within Scopus, PubMed, PMC, Embase, and other databases.

Journal Rank:

CiteScore - Q1 (Medicine (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.5 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the first half of 2025).
