

## Special Issue

# Gynecological Oncology: From Pathogenesis to Therapy

### Message from the Guest Editor

Gynecological oncology stands at the intersection of medicine, science, and compassion, and is dedicated to understanding and combating the complexities of cancers that affect the female reproductive system. From the ovaries and cervix to the uterus and beyond, this field encompasses a diverse array of malignancies. The journey from pathogenesis to therapy in gynecological oncology is a multifaceted one, and is fraught with challenges and complexities. Despite advances in research and technology, many aspects of these cancers remain enigmatic, particularly concerning rare subtypes and aggressive variants that are resistant to conventional treatments. Moreover, the landscape of gynecological oncology is continually evolving, and it is shaped by emerging trends in personalized medicine, immunotherapy, and the integration of multidisciplinary approaches. In this Special Issue, we aim to focus on gynecological oncology and explore the latest advancements in our understanding of the pathogenesis of these malignancies, the evolving landscape of diagnostic modalities, and the diverse armamentarium of therapeutic strategies at our disposal.

### Guest Editor

Dr. Stefano Cianci

Associate Professor in Department of Human Pathology of Adult and Childhood "G. Barresi", Unit of Gynecology and Obstetrics, University of Messina, Messina, Italy

### Deadline for manuscript submissions

closed (25 September 2024)

## About the Journal

### Message from the Editor-in-Chief

*Journal of Personalized Medicine (JPM)*, ISSN 2075-4426) is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. *JPM* publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, 'omics association analysis). *JPM* is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

### Author Benefits

#### High Visibility:

indexed within Scopus, PubMed, PMC, Embase, and other databases.

#### Journal Rank:

CiteScore - Q1 (Medicine (miscellaneous))

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.5 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the first half of 2025).
