Special Issue

Hormone Therapies for Women

Message from the Guest Editors

Infertility is a detrimental condition that strongly affects couples, and it is expected to become more frequent worldwide. Different conditions are responsible for infertility, accounting for structural diseases or more subtle and complex events. With this in mind, hormonal assessments play a key role in an infertility diagnosis. Moreover, gonadotropin administration is one of the leading medical treatments in assisted reproductive techniques (ARTs). We propose this Special Issue with the aim of moving the endocrinology field forward, addressing female and male infertility, particulary in these two specific issues: PCOS and hypogonadotropic hypopituarism. We consider them of paramount importance when dealing with IVF/ICSI procedures. Targeting this peculiar area of interest could increase both ART outcomes and the achievement of spontaneous pregnancy. We are also grateful to receive papers with a gender approach, as well as those on the potential impacts of COVID-19 on fertility. We would be grateful to receive original clinical and basic research articles, meta-analyses, and systematic reviews.

About the Journal

Message from the Editor-in-Chief

Journal of Personalized Medicine (JPM; ISSN 2075-4426) is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. JPM publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, 'omics association analysis). JPM is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

Editor-in-Chief

Prof. Dr. Kenneth P.H. Pritzker

Department of Laboratory Medicine and Pathobiology, Department of Surgery, University of Toronto, 6 Queens Pk Crescent W,F, Toronto, ON M5S 3H2, Canada

Author Benefits

High Visibility:

indexed within Scopus, PubMed, PMC, Embase, and other databases.

Journal Rank:

CiteScore - Q1 (Medicine (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.5 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the first half of 2025).
