Special Issue

Ehealth, Telemedicine, and AI in the Precision Medicine Era

Message from the Guest Editor

Topic brief introduction: We are pleased to introduce a Special Issue focusing on eHealth, telemedicine, AI, and rehabilitation in the precision medicine era. This Special Issue explores how these technologies intersect to optimize healthcare delivery and enhance patient outcomes.

Types of Papers Solicited: Original research articles and reviews that explore the integration of digital health technologies in personalized medicine and rehabilitation.

This Special Issue will feature papers on the integration, evaluation, and practical application of eHealth and AI in medicine and rehabilitation. It aims to provide a platform for sharing rapid advancements in AI, precision medicine, wearable devices, remote monitoring, eHealth applications, telemedicine, telerehabilitation, and virtual conferencing tools. Themes include, but are not limited to, innovative assessment and screening methods, AI-driven treatment planning and monitoring, personalized intervention strategies, and the use of LLMs (Large Language Models) in healthcare. Throughout this Special Issue, I look forward to facilitating active discussion on this topic.

About the Journal

Message from the Editor-in-Chief

Journal of Personalized Medicine (*JPM*; ISSN 2075-4426) is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. *JPM* publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, 'omics association analysis). *JPM* is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

Editor-in-Chief

Prof. Dr. Kenneth P.H. Pritzker
Department of Laboratory Medicine and Pathobiology, Department of Surgery, University of Toronto, 6 Queens Pk Crescent W,F, Toronto, ON M5S 3H2, Canada

Author Benefits

High Visibility:
indexed within Scopus, PubMed, PMC, Embase, and other databases.

Journal Rank:
CiteScore - Q1 (Medicine (miscellaneous))

Rapid Publication:
manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.5 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the first half of 2025).
