Special Issue

Personalized Medicine in Oral Health and Dentistry

Message from the Guest Editors

The rise of precision medicine, also known as personalized medicine, is advancing healthcare toward tailored, precise treatments for individual patients. With ongoing advancements in biotechnology and our deepening understanding of genetics and genomics. doctors can offer enhanced disease prevention, faster diagnoses, safer prescriptions, and more effective treatments across a broad range of health conditions. Additionally, precision medicine extends beyond treatment selection to include the customization of medical products for specific individuals, such as patient-specific tissue or biomaterials. Personalized dentistry integrates genetics and modern biotechnology into dental care, aiming for highly accurate patient analysis and individualized therapy selection. The ultimate aim is to establish the most appropriate therapy for each patient, well beyond research purposes. This Special Issue seeks to gather the latest evidence on the application of personalized dentistry in the dental field.

About the Journal

Message from the Editor-in-Chief

Journal of Personalized Medicine (JPM; ISSN 2075-4426) is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. JPM publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, 'omics association analysis). JPM is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

Editor-in-Chief

Prof. Dr. Kenneth P.H. Pritzker

Department of Laboratory Medicine and Pathobiology, Department of Surgery, University of Toronto, 6 Queens Pk Crescent W,F, Toronto, ON M5S 3H2, Canada

Author Benefits

High Visibility:

indexed within Scopus, PubMed, PMC, Embase, and other databases.

Journal Rank:

CiteScore - Q1 (Medicine (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.5 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the first half of 2025).
