

Special Issue

Research on Cell Plasticity and Tissue Remodeling in the Cardiovascular System

Message from the Guest Editor

Aims and scope: The aim of this Special Issue is to present a collection of original research articles and comprehensive reviews focusing on:

- Mechanisms of cardiac regeneration (including but not limited to cardiac stem cells, epigenetic mechanisms, and in vivo reprogramming);
- Mechanisms of pathologic vascular remodeling (atherosclerotic plaque development, endothelial-to-mesenchymal transition, and stenosis);
- Novel therapeutic development for cardiovascular regeneration or to prevent pathologic remodeling;
- Inflammation and its role in promoting and stopping pathological cardiovascular tissue remodeling.

What kind of papers we are soliciting: We are looking for original research articles and comprehensive reviews focusing on the last decade of advances on this topic.

About the Journal

Message from the Editor-in-Chief

Journal of Personalized Medicine (JPM), ISSN 2075-4426) is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. *JPM* publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, 'omics association analysis). *JPM* is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

Editor-in-Chief

Prof. Dr. Kenneth P.H. Pritzker

Department of Laboratory Medicine and Pathobiology, Department of Surgery, University of Toronto, 6 Queens Pk Crescent W,F, Toronto, ON M5S 3H2, Canada

Author Benefits

High Visibility:

indexed within Scopus, PubMed, PMC, Embase, and other databases.

Journal Rank:

CiteScore - Q1 (Medicine (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.5 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the first half of 2025).
