

Topical Collection

Genomic Medicine and Policy

Message from the Collection Editors

The rapid development of genomic technologies has generated important questions for policy makers, health system leaders, laboratories, clinicians, patients, and the public. The *Journal of Personalized Medicine* aims to publish a collection of articles that explore the legal, ethical and economic challenges and opportunities of the field and provide fresh insights to ongoing discussions and debate in genomic medicine. We will consider original research, systematic reviews, and well-designed case studies and analyses that report empirical work that presents experiences and perspectives from the US and abroad. The included topics in the issue are:

- Policy analyses of genomic medicine, including data privacy and sharing of results
- Ethical frameworks for genomic information disclosure, such as the disclosure of secondary findings in pediatric populations
- Comparative effectiveness of genomic medicine
- Economic evaluations of genomic medicine, including methods and challenges
- Implementation of genomic medicine in diverse health care settings, including methods and challenges
- Pricing, coverage and reimbursement of genomic medicine

About the Journal

Message from the Editor-in-Chief

Journal of Personalized Medicine (JPM), ISSN 2075-4426) is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. *JPM* publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, 'omics association analysis). *JPM* is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

Editor-in-Chief

Prof. Dr. Kenneth P.H. Pritzker

Department of Laboratory Medicine and Pathobiology, Department of Surgery, University of Toronto, 6 Queens Pk Crescent W,F, Toronto, ON M5S 3H2, Canada

Author Benefits

High Visibility:

indexed within Scopus, PubMed, PMC, Embase, and other databases.

Journal Rank:

CiteScore - Q1 (Medicine (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.5 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the first half of 2025).
