

## Special Issue

# Personalized Nursing and Health Care

### Message from the Guest Editors

There has been a rapid development in the academic literature over the last ten years on papers relating to individualization, personalization, patient-, client-, consumer- and person-centredness, with work on conceptual, instrumental, observational and experimental levels. This Special Issue invites papers that can further establish the current state of science on these topics relating to personalized nursing and health care. Papers are welcome that highlight and further the knowledge base conceptually, instrumentally, observationally and experimentally, with sound theoretical and methodological underpinnings and implications for research, theory and clinical work in the disciplines of nursing, medicine, allied health and beyond.

### Guest Editors

Prof. Dr. Riitta Suhonen

Dr. Minna Stolt

Prof. Dr. David Edvardsson

### Deadline for manuscript submissions

closed (5 December 2021)
