# **Special Issue**

# Personalized Medicine in Otolaryngology: Special Topic Otology

# Message from the Guest Editors

In collaboration with Journal of Personalized Medicine (IF: 4.945), in my capacity as I am helping to organize a Special Issue entitled "Personalized Medicine in Otolaryngology: Otology". This Special Issue on otology aims to give a broad overview of personalized hearing rehabilitation across all ages and indications (very young children, adults, and very old adults), different applications, as well as necessary rehabilitation options. The title is kept broad to cover all aspects of personalized treatment options and their positive impact on a patient's quality of life, from auditory brainstem implants to cochlear implants, bone conduction implants, and middle-ear implants.

In the past several decades, the technology behind all the above-mentioned hearing implants has developed immensely. This Special Issue on otology aims to discuss and broadcast some of the recent achievements and even provide a perspective on future developments in hearing technology.

# About the Journal

# Message from the Editor-in-Chief

Journal of Personalized Medicine is one of the few journals that covers the diverse areas involved in the field, including research at basic, translational, and clinical levels. It focuses on "omics"-level studies that seek to define the basis of interindividual variation in susceptibility for a disease, its prognosis or definition of clinical

subsets, and response to therapy (pharmacogenomics). We are also interested in systems biology as it relates to interindividual variation, and research on new methodologies, informatics, and biostatistics, in the aforementioned areas.

### Editor-in-Chief

#### Prof. Dr. Kenneth P.H. Pritzker

Department of Laboratory Medicine and Pathobiology, Department of Surgery, University of Toronto, 6 Queens Pk Crescent W.F, Toronto, ON M5S 3H2. Canada

### **Author Benefits**

### **High Visibility:**

indexed within Scopus, PubMed, PMC, Embase, and other databases.

#### Journal Rank:

CiteScore - Q1 (Medicine (miscellaneous))

### **Rapid Publication:**

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.5 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the first half of 2025).
