

Special Issue

Good Clinical Practice in Plastic Surgery

Message from the Guest Editors

Plastic surgery is a very individualized specialty. More so than in other fields, the quality of the operation depends on the experience and technical skill of the surgeon.

While many treatments are standardized, the potential surgical paths a surgeon may choose for an operation, and thus the outcome, vary. Furthermore, prospective randomized studies to improve patient care are hardly possible in the plastic surgery field due to structural, financial and surgical reasons. Therefore, to improve patients' wellbeing and quality of life, for this Special Issue, we are inviting the submission of papers based on individual's experiences and surgical tricks that have proven to be successful. We are particularly interested in experiences of good clinical practice in plastic surgery. Both reconstructive issues as well as aesthetic techniques are welcome.

About the Journal

Message from the Editor-in-Chief

Journal of Personalized Medicine (JPM), ISSN 2075-4426) is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. *JPM* publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, 'omics association analysis). *JPM* is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

Editor-in-Chief

Prof. Dr. Kenneth P.H. Pritzker

Department of Laboratory Medicine and Pathobiology, Department of Surgery, University of Toronto, 6 Queens Pk Crescent W,F, Toronto, ON M5S 3H2, Canada

Author Benefits

High Visibility:

indexed within Scopus, PubMed, PMC, Embase, and other databases.

Journal Rank:

CiteScore - Q1 (Medicine (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.5 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the first half of 2025).
