

Special Issue

Respiratory and Critical Care

Message from the Guest Editors

The purpose of this Special Issue is to publish high-quality research papers as well as review articles to addressing recent advances on respiratory diseases and critical care. In particular, the topic of interest includes, but is not limited to, obstructive/restrictive/vascular/infectious respiratory diseases; sleep medicine; and related areas of experimental and clinical research in respiratory medicine, critical care, and nursing. Topics covered include:

- COPD
- Occupational disorders, and the role of allergens and pollutants
- Asthma
- Allergy
- Non-invasive ventilation
- Mechanical ventilation
- Therapeutic intervention
- Lung cancer
- Lung infections – COVID-19
- Therapeutic interventions
- Adult and pediatric medicine
- Cell biology

Original, high-quality contributions that are not yet published or that are not currently under the review by another journal are sought.

Guest Editors

Dr. Ioannis Pantazopoulos

1. Assistant Professor, Department of Emergency Medicine, Faculty of Medicine, University of Thessaly, Biopolis, 41500 Larissa, Greece
2. Assistant Professor, Department of Respiratory Medicine, Faculty of Medicine, University of Thessaly, Biopolis, 41500 Larissa, Greece

Dr. Ourania S. Kotsiou

1. Faculty of Nursing, University of Thessaly, 41500 Larissa, Greece
2. Respiratory Medicine Department, Faculty of Medicine, University of Thessaly, 41110 Larissa, Greece

About the Journal

Message from the Editor-in-Chief

Journal of Personalized Medicine is one of the few journals that covers the diverse areas involved in the field, including research at basic, translational, and clinical levels. It focuses on “omics”-level studies that seek to define the basis of interindividual variation in susceptibility for a disease, its prognosis or definition of clinical subsets, and response to therapy (pharmacogenomics). We are also interested in systems biology as it relates to interindividual variation, and research on new methodologies, informatics, and biostatistics, in the aforementioned areas.

Editor-in-Chief

Prof. Dr. Kenneth P.H. Pritzker

Department of Laboratory Medicine and Pathobiology, Department of Surgery, University of Toronto, 6 Queens Pk Crescent W.F, Toronto, ON M5S 3H2, Canada

Author Benefits

High Visibility:

indexed within Scopus, PubMed, PMC, Embase, and other databases.

Journal Rank:

CiteScore - Q1 (Medicine (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 25 days after submission; acceptance to publication is undertaken in 5.8 days (median values for papers published in this journal in the second half of 2025).
