Special Issue

Advanced Minimally Invasive Surgery in Gynecology

Message from the Guest Editors

Since the introduction of laparoscopy, remarkable achievements have been made in the field of gynecologic surgery. The impact of these developments on our daily practice cannot be overemphasized. The theme of this Special Issue of Journal of Personalized Medicine is "Advanced Minimally Invasive Surgery in Gynecology," wherein the most advanced and cuttingedge innovations in the landscape of gynecologic surgery are provided. The journal invites submissions of research that reflect both practical and technical innovations from our friends and colleagues running the best centers worldwide with expertise in the field. The aim of the Special Issue is to highlight research topics including but not limited to: Minimally invasive laparoscopic surgery: Ultra-minimally-invasive laparoscopic surgery; Single-incision laparoscopic surgery (SILS): Robot-assisted laparoscopic surgery: Reduced port surgery; Vaginal natural orifice transluminal endoscopic surgery (vNOTES); 3D laparoscopic surgery; Sentinel lymph node mapping and biopsy; Tactile sensing laparoscopic surgery; Augmented reality (AR) visualization laparoscopic surgery; Intraoperative laparoscopic ultrasound.

About the Journal

Message from the Editor-in-Chief

Journal of Personalized Medicine is one of the few journals that covers the diverse areas involved in the field, including research at basic, translational, and clinical levels. It focuses on "omics"-level studies that seek to define the basis of interindividual variation in susceptibility for a disease, its prognosis or definition of clinical

subsets, and response to therapy (pharmacogenomics). We are also interested in systems biology as it relates to interindividual variation, and research on new methodologies, informatics, and biostatistics, in the aforementioned areas.

Editor-in-Chief

Prof. Dr. Kenneth P.H. Pritzker

Department of Laboratory Medicine and Pathobiology, Department of Surgery, University of Toronto, 6 Queens Pk Crescent W.F, Toronto, ON M5S 3H2. Canada

Author Benefits

High Visibility:

indexed within Scopus, PubMed, PMC, Embase, and other databases.

Journal Rank:

CiteScore - Q1 (Medicine (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.5 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the first half of 2025).
