

Navigating Economic Volatility: Predictive Models and Risk Analysis of Business Cycles

Guest Editor:

Dr. Ruilin Tian

Department of Transportation,
Logistics, and Finance College of
Business, North Dakota State
University, Fargo, ND 58108, USA

Deadline for manuscript
submissions:

31 December 2024

Message from the Guest Editor

This Special Issue aims to collate research that advances our understanding of business cycle dynamics, predictive models, and the corresponding risks that affect various sectors (including finance, risk management and insurance, investment, etc.).

Original research or practitioner papers may explore the following topics:

- Advanced models for business cycles forecasting;
- Quantitative and qualitative risk assessments at different phases of business cycles;
- The role of fiscal and monetary policy in mitigating risks caused by business cycles;
- The impact of business cycles on risk management strategies;
- The interaction between international economic activities and domestic business cycles.

We hope submissions in the Special Issue advance theoretical modelling, present empirical evidence, and provide constructive insights to professionals and policymakers.

an Open Access Journal by MDPI

Editor-in-Chief
