### Message from the Guest Editor

The contribution of environmental economics to achieving the Sustainable Development Goals (SDG) is at the foundation of contemporary economic research. Environmental economics deals with the most pressing issues of today, e.g., climate change, biodiversity protection, green economy, bioeconomy, and circular economy.

It focuses on successfully applying economic analytical methods to the environment and sustainable development (SD). The Special Issue *Advances in Environmental Economics and Sustainable Development* provides the state of the art and the major achievements in environmental economics in the analysis, prediction, and best-practice case studies to achieve the SDGs. It aims to collect scientific and expert papers, providing in-depth analysis of policy frameworks and future projections, possibilities for and applications of economic analytical methods, and numerous examples of good practices of environmental economics methods used for SD evaluation to encourage policymakers and the wider interested public to more intensively use them in various fields of life and in work in different sectors.

## Message from the Editor-in-Chief

Researchers are most welcome to contribute original research articles or comprehensive review papers for consideration and publication in *Journal of Risk and Financial Management (JRFM)*, an on-line, open access journal. *JRFM* adheres to rigorous peer-review as well as editorial processes, and publishes high quality manuscripts that address theoretical, practical and empirical issues in analysing real life financial data. The goal of *JRFM* is to enable rapid dissemination of high impact research to the scientific community.

## Author Benefits

**Open Access:**— free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [EconBiz](#), [EconLit](#), [RePEc](#), and [other databases](#).

**Rapid Publication:** manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.7 days after submission; acceptance to publication is undertaken in 4.5 days (median values for papers published in this journal in the second half of 2022).
