Deadline for manuscript submissions:

closed (31 December 2025)

Message from the Guest Editor

Dear Colleagues,

At present, we have huge sets of data available on financial assets, allowing for a wide range of analyses. Big data is a fast-growing field of research and is recognized as a very important framework in several areas, including finance, because it can describe complex datasets. This Special Issue is devoted to collecting original research on this hot topic, used to explain financial prices, returns, and volatility, but which could also be used for other purposes. Once we are able to achieve the recovery of great amounts of data, big data will allow us to analyze several phenomena, including different crises and the actual crisis caused by COVID-19. We invite you to contribute with your work.

Message from the Editor-in-Chief

Researchers are most welcome to contribute original research articles or comprehensive review papers for consideration and publication in *Journal of Risk and Financial Management (JRFM)*, an on-line, open access journal. *JRFM* adheres to rigorous peer-review as well as editorial processes, and publishes high quality manuscripts that address theoretical, practical and empirical issues in analysing real life financial data. The goal of *JRFM* is to enable rapid dissemination of high impact research to the scientific community.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, EconBiz, EconLit, RePEc, and other databases.

Journal Rank: CiteScore - Q1 (Business, Management and Accounting (miscellaneous))
