and Statistics, University of
Canberra, Canberra, Australia
shuangzhe.liu@canberra.edu.au

Data analytics and statistical learning have been widely employed to analyze business, financial, economic and other data, with recently developed techniques and applications.

The purpose of this Special Issue is to report and promote the latest progress in advancing specific techniques and methodologies and/or making relevant case studies. Manuscripts are welcome which address any area of financial data analytics, econometric analysis, risk management, statistical modelling, computation and simulation, and their applications.

Prof. Dr. Tiefeng Ma

School of Statistics,
Southwestern University of
Finance and Economics,
Chengdu, China

The Editorial Office is providing several **Feature Paper quotas** for this Special Issue. When accepted after review, these papers will be published free of charge. A Feature Paper is a high-quality paper; it is up to the Guest Editors to decide whether to grant potential authors a full waiver. Should you have any questions related to Feature Papers, please feel free to contact the Guest Editors or the journal's Editorial Office (jrfm@mdpi.com).

Special Issue

Editor-in-Chief

Message from the Editor-in-Chief

Prof. Dr. Thanasis Stengos

Department of Economics and
Finance, University of Guelph,
Guelph, ON N1G2W1, Canada

Researchers are most welcome to contribute original research articles or comprehensive review papers for consideration and publication in Journal of Risk and Financial Management (JRFM), an on-line open access

management (JRM), and an open access journal. JRFM adheres to rigorous peer-review as well as editorial processes, and publishes high quality manuscripts that address theoretical, practical and empirical issues in analysing real life financial data. The goal of JRFM is to enable rapid dissemination of high impact research to the scientific community.

Author Benefits

Open Access:— free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, ESCI (Web of Science), EconBiz, EconLit, RePEc, and other databases.

Rapid Publication: manuscripts are peer-reviewed and a first decision provided to authors approximately 19.6 days after submission; acceptance to publication is undertaken in 5.5 days (median values for papers published in this journal in the first half of 2022).
