30 April 2022

Message from the Guest Editors

Real Options Theory (ROT), as a discipline, extends from applications of options in corporate finance to decision-making under uncertainty in general, adapting the techniques developed for financial options to "real-life" investment decisions.

This Special Issue will gather theoretical and empirical papers addressing recent advances in real options. In particular, we invite original articles, comprehensive reviews, case studies, and research articles, which are neither published nor currently under review by other journals, discussing how ROT may contribute to ensuring business sustainability and success under uncertainty. This Special Issue will help bridge the gap between theory and practice in ROT adoption in corporate decision-making. Papers considered for the Special Issue will be subject to a rigorous peer review process with the aim of the rapid and wide dissemination of research advances, developments, and applications.

Editor-in-Chief

Department of Economics and Finance, University of Guelph, Guelph, ON N1G2W1, Canada

Message from the Editor-in-Chief

Researchers are most welcome to contribute original research articles or comprehensive review papers for consideration and publication in *Journal of Risk and Financial Management (JRFM)*, an on-line, open access journal. *JRFM* adheres to rigorous peer-review as well as editorial processes, and publishes high quality manuscripts that address theoretical, practical and empirical issues in analysing real life financial data. The goal of *JRFM* is to enable rapid dissemination of high impact research to the scientific community.

Author Benefits

Open Access:— free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within ESCI (Web of Science), EconBiz, EconLit, RePEc, and many other databases.

Rapid Publication: manuscripts are peer-reviewed and a first decision provided to authors approximately 13.7 days after submission; acceptance to publication is undertaken in 4.7 days (median values for papers published in this journal in the first half of 2021).
