Sustainability and CSR in Financial Management: Strategies and Risk Implications

Message from the Guest Editor

As global challenges such as climate change and social inequality become increasingly pressing, the integration of sustainability and corporate social responsibility (CSR) into financial management has emerged as a critical area of focus. This Special Issue seeks to highlight the strategies that organizations can adopt to align their financial goals with sustainable development objectives and to examine the implications of these strategies on financial risk management. This Special Issue invites contributions that cover a broad range of topics, including (but not limited to) the following:

- sustainable financial strategies;
- CSR in financial decision making;
- The impact of sustainable practices on financial performance and risk;
- The measurement and reporting of sustainability and CSR in financial contexts;
- Regulatory and policy frameworks supporting sustainable finance;
- Innovations in sustainable investment and financing models;
- Risk assessment and management in the context of sustainability and CSR;
- Stakeholder perspectives on sustainability and financial management.
