

Special Issue

Pension Fund Governance and Performance in the 21st Century

Message from the Guest Editors

We are pleased to announce a call for papers for a Special Issue on “Pension Fund Governance and Performance in the 21st Century”. This interdisciplinary Special Issue will explore the evolving landscape of pension funds amidst challenges such as an aging population, climate change, protracted periods of low interest rates, and inflationary risks. We particularly encourage submissions that address the regulatory aspects of pension fund governance and invite contributions from both academics and practitioners in the pension industry. Contributors are invited to submit original research, case studies, and review articles that bridge theory and practice, offering insights that can help shape effective pension fund governance and performance strategies for the future. We look forward to receiving your submissions and advancing the discussion in this critical area of financial and social importance.

About the Journal

Message from the Editor-in-Chief

Researchers are most welcome to contribute original research articles or comprehensive review papers for consideration and publication in *Journal of Risk and Financial Management (JRFM)*, an on-line, open access journal. *JRFM* adheres to rigorous peer-review as well as editorial processes, and publishes high quality manuscripts that address theoretical, practical and empirical issues in analysing real life financial data. The goal of *JRFM* is to enable rapid dissemination of high impact research to the scientific community.
