

Special Issue

Financial Applications to Business and Financial Risk Management

Message from the Guest Editors

This Special Issue focuses on the reception of papers that provide solutions for analyzing, measuring, or managing financial risk in any business decision. Likewise, papers that contribute to the existing literature on global financial risk will be accepted. Within this last line of work, analyses of global financial risks, by sectors, by geographical areas or those produced by specific events will be taken into account. In short, we invite original contributions in English that focus on issues related to financial management applied to business and solutions applied to global financial risk management. Theoretical papers that add value to the existing literature and make a contribution in their fields of study will also be considered. Limited financial support for publication fees and proofreading is available to excellent submissions by authors without other sources of institutional funding. Please contact the editors of this Special Issue about the Article Processing Charges (APC) and possible reductions.

Guest Editors

Dr. Ricardo Reier Forradellas

About the Journal

Message from the Editor-in-Chief

Researchers are most welcome to contribute original research articles or comprehensive review papers for consideration and publication in *Journal of Risk and Financial Management (JRFM)*, an on-line, open access journal. *JRFM* adheres to rigorous peer-review as well as editorial processes, and publishes high quality manuscripts that address theoretical, practical and empirical issues in analysing real life financial data. The goal of *JRFM* is to enable rapid dissemination of high impact research to the scientific community.

Editor-in-Chief

Prof. Dr. Thanasis Stengos
