Special Issue

Innovations in Accounting Practices

Message from the Guest Editor

This Special Issue, entitled "Innovations in Accounting Practices", seeks to explore the challenges, changes, and innovations that are shaping accounting, auditing, and taxation in the context of emerging technologies like artificial intelligence, the growing emphasis on sustainability, and the uncertainties surrounding global and local policy shifts. Topics of interest include, but are not limited to, AI integration in auditing, the impact of sustainability on financial reporting, and the implications of policy changes on corporate taxation strategies. This Special Issue aims to consider the ethical implications and the need for governance mechanisms to adapt to these new realities. Submissions that offer practical insights and theoretical advancements are highly encouraged to be submitted to this Special Issue.
