Special Issue

Mathematical Modelling in Economics and Finance

Message from the Guest Editor

The main objective of this Special Issue is to approve new approaches to stochastic modelling and estimate density function that deepen our insights into modelling and predicting techniques. This Special Issue aims at collecting original contributions containing new theoretical and/or empirical results in the context of economic and finance modelling, estimating and forecasting using mathematical, statistical, and econometric implements. However, effective alternative approaches are also encouraged.

About the Journal

Message from the Editor-in-Chief

Researchers are most welcome to contribute original research articles or comprehensive review papers for consideration and publication in *Journal of Risk and Financial Management (JRFM)*, an on-line, open access journal. *JRFM* adheres to rigorous peer-review as well as editorial processes, and publishes high quality manuscripts that address theoretical, practical and empirical issues in analysing real life financial data. The goal of *JRFM* is to enable rapid dissemination of high impact research to the scientific community.

Editor-in-Chief

Prof. Dr. Thanasis Stengos

Department of Economics and Finance, University of Guelph, Guelph, ON NIG 2W1. Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, EconBiz, EconLit, RePEc, and other databases.

Journal Rank:

CiteScore - Q1 (Business, Management and Accounting (miscellaneous))
