

## Special Issue

# Econometrics on Economic Dynamics and Financial Markets

### Message from the Guest Editors

We welcome submissions using econometric approaches with applications that may include, but are not limited to, illustrations such as financial market fluctuations, the effects of macroeconomic policies, risk measurement, and transmission of economic shocks in a more integrated and multipolar global economy. We especially welcome the submissions of high-quality articles applying innovative methods, such as time-series analysis, panel data models, machine learning, and structural econometric modeling. We aspire to disseminate pioneering theoretical and empirical research on economic dynamics and financial markets, as well as on economic growth and investment behavior. The proposed Special Issue aims to create an opportunity for scholars, practitioners, and policymakers to begin a robust conversation about the challenges and possibilities of an evolving global economy and international financial system.

## About the Journal

### Message from the Editor-in-Chief

Researchers are most welcome to contribute original research articles or comprehensive review papers for consideration and publication in *Journal of Risk and Financial Management (JRFM)*, an on-line, open access journal. *JRFM* adheres to rigorous peer-review as well as editorial processes, and publishes high quality manuscripts that address theoretical, practical and empirical issues in analysing real life financial data. The goal of *JRFM* is to enable rapid dissemination of high impact research to the scientific community.
