

## Special Issue

# Public Finance and Fiscal Resilience

### Message from the Guest Editors

This Special Issue explores the interplay between public finance and fiscal resilience amid fast-changing global and domestic challenges. Economic and social pressures—such as financial crises, pandemics, geopolitical shifts, and persistent inflation—have reshaped fiscal policy tools and public financial management frameworks. Beyond macroeconomic stability and the sustainability of central government budgets, we place particular emphasis on the financial resilience of local governments. Municipal taxation and revenue systems are crucial for ensuring public service quality and reducing regional inequalities. We welcome studies on how local tax policies support fiscal resilience and how national fiscal strategies interact with subnational revenue capacities. This Special Issue adopts a multidisciplinary perspective, integrating economics, public finance, public administration, and regional studies, to illustrate how governments can adapt to emerging challenges and build fiscally sustainable systems for the future.

## About the Journal

### Message from the Editor-in-Chief

Researchers are most welcome to contribute original research articles or comprehensive review papers for consideration and publication in *Journal of Risk and Financial Management (JRFM)*, an on-line, open access journal. *JRFM* adheres to rigorous peer-review as well as editorial processes, and publishes high quality manuscripts that address theoretical, practical and empirical issues in analysing real life financial data. The goal of *JRFM* is to enable rapid dissemination of high impact research to the scientific community.
