

# Special Issue

## Cryptocurrency Market

### Message from the Guest Editor

This Special Issue is focused on the topic of the “Cryptocurrency Market”. The cryptocurrency market is rather young, but it already provides us with sufficient data and information to explore different aspects of its development, evolution, and future prospects. The cryptocurrency market is among the most volatile today. Is there anything specific about its price behavior? Can cryptocurrencies be true safe-haven assets or hedges against inflation? Is crypto investment an asset or it is pure speculation? Is the cryptocurrency market efficient? Can abnormal profits be generated there? Is blockchain a real breakthrough in financial engineering or is crypto just a temporary bubble? These and many other questions are the objects of interest in this Special Issue. Theoretical and empirical papers on the cryptocurrency market within a wide range of research interests are welcome. We invite you to contribute with your work.

## About the Journal

### Message from the Editor-in-Chief

Researchers are most welcome to contribute original research articles or comprehensive review papers for consideration and publication in *Journal of Risk and Financial Management (JRFM)*, an on-line, open access journal. *JRFM* adheres to rigorous peer-review as well as editorial processes, and publishes high quality manuscripts that address theoretical, practical and empirical issues in analysing real life financial data. The goal of *JRFM* is to enable rapid dissemination of high impact research to the scientific community.
