

## Special Issue

# The Impact of Artificial Intelligence on Financial Risks Management in Higher Education

### Message from the Guest Editors

This issue aims to explore the challenges and opportunities associated with the increasing role of artificial intelligence (AI) in higher education, with a particular focus on the financial risks and their management. We invite original research articles, reviews, case studies, and opinion pieces that address, but are not limited to, the following topics:

- The financial implications of AI adoption in higher education institutions
- Risk assessment and management strategies for AI-driven initiatives
- The impact of AI on the cost structure of higher education institutions
- AI as a tool for optimizing resource allocation and budgeting in higher education
- The role of AI in tuition pricing and financial aid
- The effect of AI on the workforce in higher education, including potential job displacement and reskilling
- Ethical considerations and social implications of AI integration in higher education
- The role of public and private funding in AI-driven higher education initiatives
- Successful models of AI implementation and their financial outcomes

---

## About the Journal

### Message from the Editor-in-Chief

Researchers are most welcome to contribute original research articles or comprehensive review papers for consideration and publication in *Journal of Risk and Financial Management (JRFM)*, an on-line, open access journal. *JRFM* adheres to rigorous peer-review as well as editorial processes, and publishes high quality manuscripts that address theoretical, practical and empirical issues in analysing real life financial data. The goal of *JRFM* is to enable rapid dissemination of high impact research to the scientific community.
