

Special Issue

Economic Inequality and Health Equity

Message from the Guest Editor

How might economic inequality affect health at the microlevel and health outcomes/utilization? How might improving economic inequality affect health equity? How might health equity affect health utilization and economic growth? These are some conceptual questions that need more work with real empirical data. Some of the main areas to be covered in this issue include:

- Economic inequality, poverty and social exclusion;
- Economic equity and health equity;
- Economic inequality and international migration;
- Economic inequality, racism and social justice;
- Economic inequality and health utilization;
- Economic inequality and gender inequality.
