

Special Issue

Economics and Financial Networks and Their Impact on the Macroeconomy and Financial Markets

Message from the Guest Editors

There is a growing awareness about the fact that networks emerge naturally from the way individuals and firms tend to interact with each other. Recent studies underscore the importance of production networks and of financial networks in understanding the aggregate dynamics of the economy and financial markets as well as their interactions. In this Special Issue, we call for papers that study the implications of the presence of economics and financial networks and their properties in the dynamics of the macroeconomy and financial markets. Papers focusing on topics such as production networks, financial networks, the transmission of financial and macroeconomics shocks to the real economy and to financial markets are particularly welcome.

About the Journal

Message from the Editor-in-Chief

Researchers are most welcome to contribute original research articles or comprehensive review papers for consideration and publication in *Journal of Risk and Financial Management (JRFM)*, an on-line, open access journal. *JRFM* adheres to rigorous peer-review as well as editorial processes, and publishes high quality manuscripts that address theoretical, practical and empirical issues in analysing real life financial data. The goal of *JRFM* is to enable rapid dissemination of high impact research to the scientific community.

Editor-in-Chief

Prof. Dr. Thanasis Stengos

Department of Economics and Finance, University of Guelph, Guelph,
