

## Special Issue

# Economic and Financial Institutions: Their Development and Performance Throughout History

### Message from the Guest Editor

This Special Issue explores the evolution and role of economic and financial institutions throughout history and their impact on economic development and socioeconomic change. Through exploring various historical periods and critical events, it aspires to find out how economic and financial institutions have shaped and been shaped by economic and societal conditions over time. Fostering a comprehensive understanding of the dynamic interplay between economic and financial institutions and economic performance, this Special Issue not only explores the shaping of economic practices and policies over time, but also discusses contemporary issues and debates related to these institutions. Furthermore, this Special Issue invites papers of various disciplines and methodologies; contributions from new institutional economics, economic history, behavioral economics, evolutionary economics, economic sociology, historical political economy, contract theory, property rights theory, and game theory.
