Advances in Fixed Incomes and Risk Management

Message from the Guest Editor

To understand the sophisticated fixed-incomes market from both academic and portfolio management perspectives, we invite researchers and practitioners to contribute original research articles and investment strategies, both theoretical and practical in nature, related to fixed incomes for all bond instruments and structured products under regulations, monetary policy, new technology, and pandemics. Articles on bond portfolios, interest rate strategies and interest rate risk, credit risk, structured products, and the cutting edge of fixed-income markets are welcome for submission. All submissions must contain original unpublished work that is not under consideration for publication elsewhere.
