

Special Issue

Sustainable Finance for Fair Green Transition

Message from the Guest Editors

This Special Issue on "Sustainable Finance for Fair Green Transition" explores the crucial intersection of finance, sustainability, and fairness for a green transition. As the world faces the urgent challenges of climate change and environmental degradation, sustainable finance has become a key driver in mobilizing sources for a green transition. However, for a sustainable and green transition, it must also be fair, inclusive, and consider the needs and specifics of marginalized groups. This Special Issue focuses on research on how economic and financial mechanisms, policies, regulation, and innovations can support a sustainable transition that focuses not only on environmental issues but also on social and governance dimensions. Topics include, but are not limited to, the following:

- Green bonds;
- Impact investing;
- ESG (Environmental, Social, and Governance) performance;
- ESG efficiency;
- Financial market and carbon trading markets;
- Sustainability risks;
- Sustainable banking;
- Environmental regulation;
- Fintech innovation and ESG investment;
- Accounting for sustainability.

About the Journal

Message from the Editor-in-Chief

Researchers are most welcome to contribute original research articles or comprehensive review papers for consideration and publication in *Journal of Risk and Financial Management (JRFM)*, an on-line, open access journal. *JRFM* adheres to rigorous peer-review as well as editorial processes, and publishes high quality manuscripts that address theoretical, practical and empirical issues in analysing real life financial data. The goal of *JRFM* is to enable rapid dissemination of high impact research to the scientific community.

Editor-in-Chief
