Special Issue

Financial Synergy: Driving Innovation at the Intersection of Business, Technology, Education, and Economic Sustainability

Message from the Guest Editors

This Special Issue aims to explore the critical role of finance in fostering innovation and sustainable economic growth. By emphasizing financial strategies, investment mechanisms, and economic policies, this Special Issue will bridge the gap between technology, education, and business to create a more resilient global economy. The topics that will be covered include the following:

- Financial innovation and sustainable economic growth;
- Exploring the role of fintech in advancing global economic sustainability;
- The impact of digital currencies and blockchain on financial ecosystems;
- Investment strategies for a technological future;
- Venture capital and private equity: fueling innovation in emerging industries;
- Risk management in the era of Al-driven financial markets:
- The role of education in financial literacy and economic sustainability;
- Empowering the next generation with financial knowledge;
- Bridging the gap between academic research and financial industry practices;
- Corporate finance and ESG (Environmental, Social, and Governance) principles etc.
