

## Special Issue

# Infectious Disease Outbreaks, Uncertainties, Firms, and Financial Markets

### Message from the Guest Editors

The coronavirus 2019 pandemic has had a devastating impact on the global economy, resulting in the collapse of financial markets, borders closing, and travel suspension across the world. It is thus indubitably the right time for us to review the effect of infectious disease outbreaks on our societies, markets, and firms. At the same time, it is critical to investigate the consequences of uncertainties created from the outbreaks and other sources in financial markets and firms. These will provide us with lessons to better prepare for potential risks in the future. This Special Issue invites submissions related to the impact of all infectious disease outbreaks on financial markets and firms. It also calls for submissions related to the impact of different uncertainties on financial markets and firms.

## About the Journal

### Message from the Editor-in-Chief

Researchers are most welcome to contribute original research articles or comprehensive review papers for consideration and publication in *Journal of Risk and Financial Management (JRFM)*, an on-line, open access journal. *JRFM* adheres to rigorous peer-review as well as editorial processes, and publishes high quality manuscripts that address theoretical, practical and empirical issues in analysing real life financial data. The goal of *JRFM* is to enable rapid dissemination of high impact research to the scientific community.
