

Special Issue

Innovation in Venture Capital

Message from the Guest Editor

This Special Issue focuses on the broad and challenging topic of “Innovation in Venture Capital” and includes novel research on the use of new solutions and ways to enhance venture capital financing to reach a wider audience and to have a stronger impact on the GDP at large. The COVID-19 crisis highlights the great need for more equity investing to impact GDP development globally.

Theoretical and empirical articles on the application of novel venture capital techniques to generate IRR for investors, combine IRR with social impacts, enhance the growth of new ventures and reduce their mortality risk, and sustain entrepreneurs are welcome.

Contributions focusing on the comparison of IRR and of the EBITDA growth between well-established venture capital solutions (i.e., funds) and new solutions such as search funds, corporate ventures, and club deals are encouraged, as are contributions analyzing the impact of tax incentives (or regulatory mechanisms) in enhancing venture capital investment.

About the Journal

Message from the Editor-in-Chief

Researchers are most welcome to contribute original research articles or comprehensive review papers for consideration and publication in *Journal of Risk and Financial Management (JRFM)*, an on-line, open access journal. *JRFM* adheres to rigorous peer-review as well as editorial processes, and publishes high quality manuscripts that address theoretical, practical and empirical issues in analysing real life financial data. The goal of *JRFM* is to enable rapid dissemination of high impact research to the scientific community.
