

Special Issue

Risk of Artificial Intelligence and International Business

Message from the Guest Editors

This Special Issue intends to set a new research agenda for studying international business operations and the risk of adopting AI. The object of this Special Issue is to open a scholarly discussion on international business factors that interfaces with the dark side of AI. The call for papers is open to a wide range of scholarship scopes and different methodological approaches, including qualitative, quantitative, mixed-methods, and theoretical/conceptual papers. Potential topics include, but are not limited to, the following:

- Risk of adopting AI for everyday life business operations;
- Risks of adopting AI for fintech;
- Risks of selecting personnel via AI;
- Service failure risks in adopting AI for global markets;
- Financial crisis and AI for stocks forecasting;
- Financial risks in algorithm trading;
- International human resource management risk and AI;
- International business decision-makers resist the adoption of AI.

Submissions for the Special Issue should be made through the following link:

About the Journal

Message from the Editor-in-Chief

Researchers are most welcome to contribute original research articles or comprehensive review papers for consideration and publication in *Journal of Risk and Financial Management (JRFM)*, an on-line, open access journal. *JRFM* adheres to rigorous peer-review as well as editorial processes, and publishes high quality manuscripts that address theoretical, practical and empirical issues in analysing real life financial data. The goal of *JRFM* is to enable rapid dissemination of high impact research to the scientific community.

Editor-in-Chief

Prof. Dr. Thanasis Stengos

Department of Economics and Finance, University of Guelph, Guelph,
