

Special Issue

Monetary and Financial Market Integration in East Asia

Message from the Guest Editors

In the absence of a formal institutional framework, East Asia has evolved to be one of the most integrated areas in the world over the past several decades, both economically and financially. China's astonishingly rapid rise is believed to reshape the international financial system and drive greater regional financial and economic integration in East Asia. This Special Issue aims to bring together a collection of articles that address issues concerning the monetary and financial market integration in East Asia and the rise of China. We hope that this collection of papers will add to the existing literature, both at the theoretical and empirical level, and advance the understanding of the process of East Asian monetary and financial market integration and the consequences.

About the Journal

Message from the Editor-in-Chief

Researchers are most welcome to contribute original research articles or comprehensive review papers for consideration and publication in *Journal of Risk and Financial Management (JRFM)*, an on-line, open access journal. *JRFM* adheres to rigorous peer-review as well as editorial processes, and publishes high quality manuscripts that address theoretical, practical and empirical issues in analysing real life financial data. The goal of *JRFM* is to enable rapid dissemination of high impact research to the scientific community.
