

Special Issue

The Modern-Day Energy Economy

Message from the Guest Editor

This Special Issue focuses on the new and emerging global energy economy, including current research incorporating the necessity associated with the world's retirement of carbon-based energy sources and integration of sustainable, clean energy solutions. The research needs to consider either one or both of the above-mentioned technical innovations, evaluating decarbonised solutions for energy generation and energy storage, as well as the economic imperatives attached to existing and emerging clean energy or decarbonised solutions. We encourage contributions providing a coverage of the above and incorporating energy generation, storage, distribution and energy economics, and, potentially, ESG imperatives.

About the Journal

Message from the Editor-in-Chief

Researchers are most welcome to contribute original research articles or comprehensive review papers for consideration and publication in *Journal of Risk and Financial Management (JRFM)*, an on-line, open access journal. *JRFM* adheres to rigorous peer-review as well as editorial processes, and publishes high quality manuscripts that address theoretical, practical and empirical issues in analysing real life financial data. The goal of *JRFM* is to enable rapid dissemination of high impact research to the scientific community.

Editor-in-Chief

Prof. Dr. Thanasis Stengos

Department of Economics and Finance, University of Guelph, Guelph,
